# MATH 592

## Data Analysis and Probability for Middle School Teachers

Get a deeper understanding of the concepts, processes and algorithms, and the purposes beneath them, found in the middle school mathematics curriculum, with a focus on data analysis and probability. Learn to construct strategies, which are supported by current research, for teaching data analysis and probability to students of differing abilities. Increase your ability to implement the five (NCTM) Process Standards: problem solving, reasoning and proof, communication, connections, and representation.

### When:

Thursdays Evenings  
(from January 31 to May 15, 2008)  
From: 4-6:30pm

### Where:

Hedgepeth/Williams School in Trenton

### \$1,425 Registration Includes:

3 Graduate Level Credits at The College of New Jersey  
and Professional Development Hours

**Registration Deadline January 15, 2008**  
**Questions Call Michelle 609-771-2295**
